# PROFILE

Sangeeta Poly Pack Pvt. Ltd. is a division of Sangeeta Group, a leading manufacturer of Plastic products.

We are the pioneers in the field of producing world-class Polypropylene and sheets that have consistency in gauge and quality. Our Taiwanese sheet extrusion machines, and above 47 years of plastic processing knowledge, help us provide quality products at competitive prices.

Our state-of-the-art manufacturing facility at Daman is spread over 150,000 sq. ft. and is equipped to handle 20,000 tons per annum.

We have our dominant presence in all the fields of applications of PP sheets and Flute Boards.

Our customer base include leaders from the Printing, Fabrication, Stationery, Packaging & Promotional Products industry. With a strong sales and distribution network, we have our presence within India and global markets.

# VALUES

“We believe competitive prices and high quality products, efficient customer service coupled with innovation and originality in product development, are the keys to a successful brand and product.”

# GROUP

Sangeeta Group of Companies, is a well-knit association of companies, active in the plastic packaging industry, since the last forty seven years. It was founded by the visionary, Mr. Harpal Singh Arora, in the year 1972, who has carried a vast experience in the plastic processing field.

Sangeeta Group is a consolidation of 3 manufacturing sites in Daman, and is the largest supplier of quality plastic packaging products in India. The product portfolio of the Group consists of Polypropylene sheets & films, PP Twines (Plastic Sutli), Multi-colour photo print shopping bags, HM/HDPE pick-up/carry bags, PP Flute Boards, PP garment bags, and much more.

“Imagine-Innovate-Improvise”

# PRODUCTS

A special formulation of Polypropylene, is extruded and embossed in a wide range of finish and colors, for printing and conversion.

SHEET X is developed by Sangeeta Poly Pack Pvt. Ltd. using specially formulated polypropylene for the stationery, packaging and visual communication industry. SHEET X sheets are manufactured with highest standards, which enables to produce only the best in visual and quality excellence.

SHEET X is specially designed for the Graphic Arts industry like Stationery, Printing, Packaging, Promotion and POP Advertising.

The printability on this specific formulation of alloys is excellent. You are sure to find the products of the highest standards and appeal.

Never-ending variety and a wide choice is what makes SHEET X so unique.

## **Main characteristics and advantages of SHEET-X:**

The low density of SHEET-X is much more attractive than other competitive polymers.

- ▶ SHEET - X is 100% recyclable and an environmentally "friendly" polymer
- ▶ SHEET - X does not emit toxic gases when burned under normal condition
- ▶ SHEET - X has an additive to reduce static and dust build-up
- ▶ SHEET - X is impervious to water, oil and most chemical
- ▶ SHEET - X is easy to convert (cut, die-cut, print, weld)
- ▶ SHEET - X is a special polypropylene formulation which offers excellent clarity and impact strength.
